

Case Study

How Standard Chartered Bank partners with Turing Talent to hire **top-tier Data talent across 4 international locations**

Challenge

- Talent search across **multiple international locations** (London, Singapore, HK, Dubai) simultaneously to find the very best of talent in Data Science
- Need high competency in **stakeholder management** in addition to a high level of technical skills
- Strong mission to hire **inclusively**

Solution

- Standard Chartered Bank **partnered with Turing Talent, using Leadership Program as a competitive edge** to attract top talent internationally
- Turing Talent **worked seamlessly** with each local hiring team, supplying a **pre-screened pipeline**
- Used “Permanent hiring” model

Result

- Jillian was hired in Singapore
- Active in the Leadership Program alongside job with focus on communications and stakeholder management
